## Anonymous Survey

**approx. 10 minutes**

### Study Aims:

- To explore your confidence in precepting/supporting/teaching new staff, students, graduates or specialty program participants in clinical settings
- To explore what factors contribute to your confidence in this area

### The findings may:

- Contribute to the development of preceptorship guidelines, recommendations or frameworks
- Inform workplaces on how best to support and equip confident preceptors
- Improve patient care, promote job satisfaction and staff retention
